Subject: Sesko Tideland Pontoons

Mark,

DNR is again turning its attention to the pontoons the Seskos have moored in the harbor area in the Port Washington Narrows. DNR is investigating whether it could get someone to tow the pontoons to Seattle Iron to be scrapped. To do so, the hatches on the pontoons would need to be welded shut. Who should I talk to at the City about the permits that DNR or the contractor would need to obtain for the activity?
